

Проводим опыты : вода впитывается,
вода течет

A group of children are sitting around a yellow table, engaged in a craft activity. They are using cotton wool to create clouds on blue paper. The children are wearing various colored clothing, and the table is set with small bowls of cotton wool and brushes. The scene is brightly lit, and the children appear to be focused on their work.

Рисование :
«Тучка и
ДОЖДИК»

A group of children are sitting around a yellow table, engaged in a craft activity. They are using cotton wool sticks to create raindrops on blue paper. The children are wearing various colored clothing, and the table is set with small bowls of cotton wool and brushes. The scene is brightly lit, and the children appear to be focused on their work.

Тучку - комочками ваты,
капли дождя — ватными
палочками

Опыт №4:
«Что растворится в воде».

Опыт №2:
«Прозрачная вода»

Опыт №5: «Что плавает в воде?»

Убираем мусор
из воды

Закрепляем...для чего нужна вода???
